4. Cash is to be employed productively at all times, by investment in short term cash equivalents to provide safety, liquidity, and return.

INVESTMENT MANAGEMENT POLICY

1. Preservation of Capital - Consistent with their respective investment styles and philosophies, investment managers should make reasonable efforts to preserve capital, understanding that losses may occur in individual securities.
2. Risk Aversion - Understanding that risk is present in all types of securities and investment styles, the Investment Committee recognizes that some risk is necessary to produce long-term investment results that are sufficient to meet the Asset's objectives. However, the investment managers are to make reasonable efforts to control risk, and will be evaluated regularly to ensure that the risk assumed is commensurate with the given investment style and objectives.
3. Adherences to Investment Discipline - Investment managers are expected to adhere to the investment management styles for which they were contracted. Managers will be evaluated regularly for adherence to investment discipline.

5/31/12

ATTITUDE TOWARD GIFTS

Future giving (contributions) to the SWPRTI is expected to be inconsistent and unpredictable. As a result, the Investment Committee has set an investment strategy with the objective of maintaining purchasing power of Assets before consideration of gifts. Accordingly, future giving will serve to increase purchasing power.

INVESTMENT PORTFOLIO

Limitations on instruments, diversification and maturity scheduling shall be guided by the investment portfolio.

The portfolio is reserved for capital projects, for funding the Institute's scholarship programs and other endowments for Institute purposes as determined by the Board. The principal in each of the scholarship funds is to remain in perpetuity for the purpose of funding professional and student scholarships as identified by the Institute's Manual of Procedures.

The distribution and allocation of Assets shall be determined by the Board either as part of the annual budgetary process or by specific action.

INVESTMENT PORTFOLIO - SPENDING POLICY

The Investment Committee may set an annual spending target as a percentage of the total investment portfolio market value in order to meet regular and/or predictable needs as long as the spending target does not erode the portfolio's principal. To the extent possible, particular attention should be given to keeping the principal in the Assets portfolio inviolate. When spending targets are not set, it is assumed that all investment returns will be automatically re-invested within the investment fund(s).

INVESTMENT OBJECTIVES

The investment objective is to preserve the real value or purchasing power of the endowment pool of Assets and the annual support provided by these Assets for an indefinite period.

In order to meet its needs, the investment strategy of SWPRTI Assets is to emphasize total return; that is, the aggregate return from capital appreciation and dividend and interest income. Specifically, the primary objective in the investment management for Assets shall be:

Preservation of Purchasing Power After Spending - To achieve returns in excess of the rate of inflation plus spending over the investment horizon in order to preserve purchasing power of Assets. Risk control is an important element in the investment of Assets.

The secondary objective in the investment management of Assets shall be:

Long-Term Growth of Capital - To emphasize long-term growth of principal while avoiding excessive risk. Short-term volatility will be tolerated in as much as it is consistent with the volatility of a comparable market index.

SPECIFIC INVESTMENT GOAL

Over the investment horizon established in this statement, it is the goal of the Aggregate Assets to exceed:

The rate of inflation (as measured by the Consumer Price Index) by 5%

The investment goal above is the objective of the Aggregate Assets, and is not meant to be imposed on each investment account (if more than one account is used). The goal of each investment manager, over the investment horizon, shall be to:

1. Meet or exceed the market index, or blended market index, selected and agreed upon by the Investment Committee that most closely corresponds to the style of investment management.
2. Display an overall level of risk in the portfolio which is consistent with the risk associated with the benchmark specified above. Risk will be measured by the standard deviation of quarterly returns.

DEFINITION OF RISK

The Investment Committee realizes that there are many ways to define risk. It believes that any person or organization involved in the process of managing the Assets understands how it defines risk so that the assets are managed in a manner consistent with the Asset's objectives and investment strategy as designed in this statement of investment policy. The Investment Committee defines risk as: **The probability of not meeting the Assets' objectives.**

LIQUIDITY

To minimize the possibility of a loss occasioned by the sale of a security forced by the need to meet a required payment, the Investment Committee will periodically provide investment counsel with an estimate of expected net cash flow. The Investment

Committee will notify the investment consultant in a timely manner, to allow sufficient time to build up necessary liquid reserves.

MARKETABILITY OF ASSETS

The Investment Committee requires that all Assets be invested in liquid securities, defined as securities that can be transacted quickly and efficiently for, with minimal impact on market price. All securities shall be invested in socially responsible funds.

The Investment Committee feels that many derivative securities are relatively new and therefore have not been observed over multiple economic cycles. Due to this uncertainty, the Investment Committee will take a conservative posture on derivative securities in order to maintain its risk adverse nature. Since it is anticipated that new derivative products will be created each year, it is not the intention of this document to list specific derivatives that are prohibited from investment, rather it will form a general policy on derivatives. **Unless a specific type of derivative security is allowed in this document, the Investment Manager(s) may not invest Assets in derivative investments.**

The Investment Committee intends to evaluate the portfolio(s) over at least a three year period, but reserves the right to terminate a manager for any reason including the following:

1. Investment performance which is significantly less than anticipated given the discipline employed and the risk parameters established, or unacceptable justification of poor results.
2. Failure to adhere to any aspect of this statement of investment policy, including communication and reporting requirements.
3. Significant qualitative changes to the investment management organization.

MANUAL OF PROCEDURES

ENDOWMENT POLICY, GUIDELINES & PROCEDURES

SECTION I. A. (2) e. 4

5/31/12

A. ENDOWMENT POLICY

The Southwest Park and Recreation Training Institute (SWPRTI) has been the recipient of generous endowment gifts to provide perpetual scholarships for educational purposes to those in the field of parks and recreation and may receive additional gifts in the future for other SWPRTI purposes.

The Board of Directors of SWPRTI has authorized the establishment of endowment accounts or permanent funds resulting from gifts and donations. In the future when gifts and donations are received for endowment purposes, SWPRTI will confirm in writing that the principal (sometimes called the "corpus") cannot and will not be "invaded" for current expenditures and will remain with the SWPRTI in perpetuity. Over time, the economic value of each endowment must be protected by limiting the amount of earnings that may be expended and reinvesting unexpended earnings. The endowment funds will be invested according to the SWPRTI's Investment Policy and the earnings will be made available for the purpose the donor specifies as may be outlined in a gift agreement. The investment earnings generated from endowments must be used in accordance with the terms established by the donor(s).

To meet the foregoing requirement, SWPRTI has established an endowment management policy with the following goals:

- to balance present spending needs with expected future requirements.
- to protect the purchasing power of the capital base of endowments while achieving stability in year-to-year spending; and
- to attain real increases in spending through capital appreciation from new gifts, capital investment gains, and the capitalization of investment earnings.

Therefore an endowment spending policy must set guidelines that preserve real capital value and provide advance information on available support to accommodate planning for the full utilization of all available spending allotments.

For new endowments, it is important both to provide attainable spending expectations in the early years while ensuring that the capital base has solid footing and will be able to sustain future spending.

The spending guidelines that follow are designed to provide for the integrity of the real capital and to facilitate utilization of the annual support available by determining spending levels in conjunction with the SWPRTI's budget process.

B. ENDOWMENT SPENDING GUIDELINES

A level of endowment will be established based upon a fund balance sufficient to sustain the projected annual spending allotment objective.

Subject to review and adjustment annually by the Board of Directors upon recommendation by the Investment Committee, it is our objective to budget 3% of the rolling three-year average of an Endowment Fund balance as of each March 31 to the next fiscal year's budgeted revenue. This target is set based on a 5 % average expected return of a balanced portfolio managed on

a total return basis over long periods of time. The objective of this strategy is for each fund to provide for administrative and management fees not to exceed 1.5% per annum and grow the Endowment Fund a minimum of .5% per year or greater when returns exceed 5%.

For example, a projected annual spending allotment objective of \$1000 would require a \$33,333 level of endowment.

Should the average market value for the quarter ending March 31 of any endowment fall below the minimum endowment level as established by the Board, then spending will be suspended to prevent spending of any of the capital. During this period, all investment returns will be capitalized to restore the market value of the endowment's capital endowment. Deferral of spending shall continue until the endowment appreciates sufficiently to support the annual spending allotment objective or additional gifts are received into the fund resulting in a balance which meets or exceeds level of endowment requirements.

For example, the disbursement of \$1,000 would require a fund balance of 34,333 in order to assure that after disbursement a minimum endowment level is maintained. In this case the minimum fund balance to be maintained is \$33,333. Disbursement amounts less than the projected annual spending allotment objective can be considered as long as the minimum endowment level required is maintained.

Should any endowment's spending allotment be insufficient to provide the desired annual spending allotment objective, SWPRTI may supplement the shortfall from other resources until the endowment has achieved capital growth which can provide the desired spending level.

Occasionally, circumstances may preclude spending the allotted spending amount due to such circumstances as a lack of qualified candidates for scholarships or unexpected disqualifications. If an unspent balance develops, SWPRTI may proceed under the following options:

1. Develop a plan to spend this unspent balance in accordance with the endowment's terms over subsequent years. Care should be taken to avoid significant variations in year to year spending;

OR

2. Capitalize the unspent balance to the principal capital of the endowment. This will provide the endowment with a larger and more stable capital base that will generate increased spending amounts in future years.

OR

3. A combination of the above options.

C. PROCEDURES

The following guidelines for endowments have been established to facilitate processing and handling major gifts which are to be used for endowment purposes. These guidelines will provide direction in the requirements which must be met by both the donors and the SWPRTI

before such an endowment can be established. These requirements are intended to protect the interest of the donor and allow the SWPRTI to economically carry out the requirements of the gift agreement.

The general guidelines for endowments follow:

1. Gifts totaling a minimum of \$15,000 will be required to establish an endowment fund.
2. The SWPRTI President should be contacted immediately upon inquiry from a potential donor regarding an endowment.
3. Gifts totaling less than \$15,000 may be classified as an endowment fund upon approval of the SWPRTI Board of Directors if future additions to this fund are pledged or expected to be pledged. A maximum time of five years to achieve the minimum endowment threshold should be utilized for planning purposes. The investment value of all undercapitalized endowment funds shall be allowed to accumulate until the value of the account reaches \$15,000. If the minimum is not attained during the allowable period, the accumulated funds can be added to another fund endowment as determined by the Board.
4. Endowed funds may be “named” upon approval of the SWPRTI Board of Directors.
5. Each endowment fund will have specific guidelines. The establishment of an endowment fund requires SWPRTI Board of Directors approval. Upon Board approval, a gift agreement signed by the donor and affirmed by the SWPRTI President or his/her designee should be duly executed prior to acceptance of the endowment gift.
6. Payments from individual endowment funds will not exceed endowment spending guidelines as established by the SWPRTI Board of Directors.
7. Donors will not be permitted to have control over the investment of endowment funds or the use of the income beyond the initial gift restrictions stipulated at the time of acceptance by SWPRTI.
8. The SWPRTI Investment Committee directs the investment of endowment funds as set forth in the SWPRTI Investment Policy.
9. It is recognized that in rare instances the need for the established endowment fund may cease to exist, in which case, the following procedures will be substantially adhered to:
 - (a) Notify the principal donor, if still available, that the SWPRTI Board of Directors has determined that the particular endowment fund can no longer serve the purpose originally intended.
 - (b) Have the principal donor select such other form of endowment which may then be available for immediate implementation by SWPRTI.
 - (c) The use of the original endowment fund will be transferred to the selected endowment and shall bear the name of the original principal donor.

(d) If for any reason the original donor is unavailable or should there be no agreement as to the disposition of the endowment fund as originally contemplated, funds shall be transferred to be used for the educational purposes of SWPRTI as the SWPRTI Board of Directors may determine.

10. Should SWPRTI cease to exist, and then the funds shall be transferred in accordance with the by-laws of SWPRTI or as prescribed in the endowment agreement between SWPRTI and the donor.

D. SCHOLARSHIP AWARDS

1. SWPRTI scholarship guidelines cannot exclude prospects on the basis of race, color, sex, religion, creed, national origin, political persuasion, marital status, sexual preference, handicap or age.

2. A constant effort will be made to keep the scholarship guidelines flexible to alleviate any potential difficulties which would make it impossible to administer the scholarship in any one year.

3. To preserve the tax benefits to individuals donating funds scholarships, donors are not allowed to choose recipients.

4. Any criteria for endowed scholarships should be outlined prior to approval and acceptance by the SWPRTI.

5. Provisions must be made for alternate uses should the principal of the endowment fall below the minimum requirement established by the SWPRTI at the time of its initiation.

6. Scholarship recipients will be required to communicate appreciation to donor(s) of scholarships by writing letters of thanks to the donors or donor families as provided by SWPRTI, and encouraged to attend an annual SWPRTI awards dinner.

E. EDUCATION FUND

2. Ten (10) percent of the Return on Investment shall be retained to grow the corpus of the fund.
